Career Objective

Computer Science Engineering graduate with strong knowledge of Java, SQL, OOP, and web technologies, currently undergoing Java Full Stack Development training at VibrantMinds Technologies. Seeking an entry-level software development opportunity to apply my technical skills and contribute to real-world projects.

Education

Bachelor of Engineering in Computer Science and Engineering	2026
<i>Babasaheb Naik College of Engineering, Pusad</i>	SGBAU – Percentage: 83.31%
Diploma in Computer Engineering	2023
<i>Shri Shivaji Polytechnic Institute, Parbhani</i>	MSBTE – Percentage: 75.31%

Training Experience

VibrantMinds Technologies	2026 – Present
<i>Java Full Stack Development Trainee</i>	<i>Pune, Maharashtra</i>
• Java: Core Java, Advanced Java, Java 8, and Data Structures and Algorithms (DSA). • Web Technologies: SQL, HTML, CSS, and JavaScript.	
S2P Educational Training Center	Jul 2025 – Dec 2025
<i>Python & Gen AI Intern</i>	<i>Pusad, Maharashtra</i>
• Gained hands-on experience in Python programming and FastAPI through practical training and development tasks. • Worked on “Periroscope AI – AI-Powered Sales Data Analyzer”, a chatbot-based project for analyzing sales data.	

Projects

Periroscope AI – AI-Powered Sales Data Analyzer <i>Python, FastAPI, Rasa, Mistral API, Groq API</i>	
• Developed an AI-powered chatbot that enables users to analyze sales data through natural-language queries and provides insights on sales performance, product trends, and revenue statistics. • Worked as a Backend Developer, developing APIs using Python and FastAPI and integrating AI services for processing user queries and sales data. • Worked on AI training and prompt design to improve response accuracy and ensure reliable processing of sales data and user queries. • Integrated Mistral API and Groq API for natural-language understanding and high-speed AI inference, generating summaries, statistics, and visualizations from sales data.	
Banking Management System <i>Core Java, Swing, AWT, MySQL</i>	Aug 2023 – Nov 2023
• Developed a standalone ATM Simulator System using Core Java, Swing, AWT, and MySQL for managing banking operations. • Implemented functionalities including account creation, deposit, withdrawal, mini statement, and PIN change with MySQL database integration.	

Technical Skills

Programming Languages: Java, Python
Web Technologies: HTML, CSS, JavaScript, REST API
Database: SQL/MySQL, Oracle
Tools: Git (Version Control), Postman, Linux, MS Office

Soft Skills

Problem Solving, Leadership, Teamwork, Communication Skills
